Summary

Hi, It's Furqan. I am a Professional Website Designer.

WordPress:

I have been working with WordPress for 4 years and have developed a wide range of websites, from small personal blogs to large corporate websites. I am comfortable working with all aspects of WordPress, from installing and setting up a new site to customizing themes and plugins. I am also experienced in working with WooCommerce, the popular eCommerce platform that runs on top of WordPress.

JavaScript:

I have been working with JavaScript for more than 1 year and have created many sites using JS. I am a professional MERN Stack developer at SJ Empower PVT LTD. If you are looking for someone to develop a website for you using JS, then I would be happy to help. Feel free to get in touch with me.
